

Service & Maintenance

Our national network of engineers means a fast response time and minimum disruption to your business. Our emergency service is delivered by qualified, fully insured specialist engineers and the work is 100% guaranteed. We offer a full preventative maintenance service that gives support after most manufacturers' warranties and guarantees have expired.

New and reconditioned equipment

We supply top quality products by world leading brands including Dyson and Precision. We're your local market leader giving excellent service and value for money. Our sales team has superior knowledge and skills tailoring our products to your needs. Whether you choose new or used equipment the standard and quality remains the same. We have a pickup and recycle service.

Air conditioning, extraction & ventilation

We supply, install, service, maintain and repair climate control systems for commercial and domestic customers. We use quality products backed up by our team of highly skilled UK wide service engineers. Our systems don't just maintain the right temperature, they're cost effective too. Our domestic runs at 30% less than a conventional heating installation.

Refrigeration

Our team is specialist in commercial refrigeration design, installation, servicing and repairs. We use only quality products and sell both new and reconditioned equipment. From a glass chiller to a full kitchen or cold room our customers get a superior product and excellent service.

LED lighting

We're your local market leader and a switch to LED lighting can save millions of pounds for both businesses and people. We specialise in NHS and local authority work.

Bespoke Fabrications

We specialise in bespoke fabrication. Our metal fabrication processes use some of the most advanced machinery in the industry combined with Computer Aided Design and a skilled workforce. We have an excellent reputation for quality and reliability and our team of designers, sheet metal workers and welders pride themselves on precision engineering to the highest possible standard.

Drainage

Safeguard Drain Services have over 25 years experience and use the latest technology to ensure your drains are properly maintained domestic or commercial. Our experienced team of builders and engineers can deliver everything from a one-off installation to regular visits to keep your drainage systems in top condition.

Facilities Management

We operate a team of highly skilled Engineers right around the UK. We offer a complete range of commercial building services ranging from small electrical repairs, to complete property refurbishment.

Interior Fit-outs

We work with some of the biggest brands in the UK including TGI Friday's and Chaophraya Restaurants and Bars.

Our design team use the latest in technology and software to produce a tailor made package meeting all the requirements of our customers. They're highly skilled and creative in their approach whilst ensuring that the costs are kept down.
